

**MEMORANDUM OF UNDERSTANDING
BETWEEN
California Government Operations Agency
and
the County of X**

The California Government Operations Agency (Agency) and the County of ____ (County) hereinafter referred to singularly as “the Party” and collectively as “the Participants,” in an effort to provide for the vaccination of Californians in order to mitigate the continued spread of COVID-19, have reached the following understanding, and agree as follows:

**SECTION 1
Objective**

The purpose of this Memorandum of Understanding (“MOU”) is to establish Agency’s expectations and conditions for County’s continued eligibility for allocation of COVID-19 vaccine. Agency recognizes the unique role played by County in providing vaccine access to California’s underserved communities.

**SECTION 2
Statement of Understanding**

- A. Agency, together with the Department of Public Health (Department), (a) has supplied, and will continue to supply County, subject to the limitation in subparagraph B of this Section 2, with the COVID-19 vaccine for administration to its patients in connection with its ongoing vaccination efforts, and (b) will exercise reasonable efforts to assure that County is allocated sufficient doses of the vaccine for administration to eligible individuals by the County as a health care provider. Agency acknowledges and shall ensure that Blue Shield of California as the third-party administrator (TPA) for the statewide vaccinating provider network understands that County is dependent on sufficient supply of the vaccine from the State for its ongoing vaccine administration. County recognizes that Agency is dependent on the federal government for allocation of vaccine and that changing circumstances in the pandemic may require reallocation of vaccine to providers and to communities that are suffering from significant outbreaks of COVID-19 or where the local health care system is stressed; and
- B. Agency makes no guarantee or commitment for any minimum or maximum amount of COVID-19 vaccine that may be allocated to County; and
- C. County shall not reallocate or redistribute to other health care providers any vaccine it receives through its allocations. County shall use all vaccine it receives through its allocations to administer to individuals it serves as a health care provider; and

- D. Agency reserves the right at any time to provide County notice of changes in the amount or type of vaccines that may be allocated to a County and/or any of County's vaccination site(s) for administration to vaccine recipients to facilitate administration of the COVID-19 vaccine. Agency will provide County as much advance notice of such changes as is reasonably feasible in order to assist County in its vaccination planning. County acknowledges that vaccine allocation decisions will be made using the State allocation algorithm, as may be modified from time to time; and
- E. County shall use MyTurn (MyTurn.ca.gov), or other technology platform as directed by Agency to submit all required data reasonably necessary for Agency to manage the statewide vaccine network that is related to County's administration of the COVID-19 vaccine. County shall prepare and maintain complete and accurate vaccine-related medical and other records and reports relating to the administration of the COVID-19 vaccine (collectively, "Records"), in a form maintained in accordance with the generally accepted standards applicable to such Records, and in compliance with applicable State and federal confidentiality and privacy laws. Agency, and any authorized governmental officials entitled to such access by law, may at any time during the term of this MOU and for a period of at least three (3) years after the termination of this MOU or such longer period as may be required by applicable State or federal law, request access to such Records for inspection, including as part of a virtual or in-person site compliance request. County shall participate in and cooperate with any audit, oversight and monitoring processes conducted by Agency, including, without limitation, that County agrees to allow the auditor(s) access to Records during normal business hours to examine Records and upon reasonable notice, reproduce Records at no charge by County and to allow interviews of any employees who might reasonably have information related to such Records; and
- F. County shall not under any circumstances bill, charge, collect a deposit from, impose a surcharge on, directly or indirectly seek compensation, remuneration or reimbursement from, or have any recourse against any vaccine recipient for the cost of vaccine administration or related services, provided, however, that County can bill government health programs such as Medi-Cal, Medicare, and HRSA, and private insurance carriers for vaccine administration or other related costs; and
- G. County shall have the ability to establish and will maintain an electronic interface to either the State Immunization Registry or appropriate County Immunization Registry and MyTurn.ca.gov (or other appropriate electronic health record interface as directed by Agency). To the extent applicable and for purposes of clarity, the Participants acknowledge and agree that a County with an industry-standard and certified Electronic Medical Record system (e.g., EPIC, Cerner, or any vaccine information system that meets the requirements for integrating with MyTurn), may leverage a standard interface

defined by Agency to connect from MyTurn to Scheduling and Vaccine Clinic Management with an electronic interface to the State Immunization Registry; and

- H. County shall follow criteria established by the Department in determining individuals' eligibility for vaccination appointments and prioritization of appointments, including targeting appointments to members of underserved communities that have suffered a disproportionate burden of the COVID-19 pandemic; and
- I. County acknowledges that, by signing this MOU, it is joining the statewide network of providers administering the COVID-19 vaccine that is supported by the TPA, acting as Agency's agent and at Agency's direction. County acknowledges Agency's expectation that all providers in the statewide vaccinator network will reasonably cooperate with the TPA in facilitating efficient administration of the COVID-19 vaccine.

SECTION 3 Services and Activities

County shall provide the following services (the "Services"):

- A. Within no more than twenty-four (24) hours of administering a dose of COVID-19 vaccine and adjuvant (if applicable), County shall record in the vaccine recipient's record, and shall report complete and accurate vaccine administration data required in the MyTurn reporting tool and other technology platforms required by Agency and CDC (such as, for example, VaccineFinder, and CAIR2) or other appropriate electronic health record interface as permitted under subparagraph E of this Section 3. Agency acknowledges that there may be circumstances that cause delay in the submission of data, in which case County will alert Agency and complete data recordation and submission as soon as practicable; and
- B. County shall make available at its vaccination site or sites written materials that Agency prepares, prints, and delivers to County; and
- C. County shall provide additional support as may be reasonably requested by Agency to assist Agency in the successful COVID-19 vaccine administration.
